

## PROJECT MANAGER/SCRUM MASTER TO GREENFIELD SYSTEM IMPLEMENTATIONS

We are looking for an experienced Project Manager/Scrum Master to become part of our team in Applications & Data Lab. At IFU, we are undergoing a major transformation, where we are replacing all applications, based on a Microsoft-first strategy. We are already working on our new Investment Management System in Dynamics 365 Sales and have a new ERP system (F&O or BC) and HR system in the pipeline. We are a small organization but have a high execution speed and a short time from decision to action. Here you will become a central person who can help shape the deliveries to the organization with a focus on value. We use Scrum as a delivery model but have a non-evangelistic approach to the model. The most important thing is feedback from the end-user and that we can optimize the value for them.

The ideal candidate will have a strong background in project management within the Microsoft tech stack, deep understanding of agile methodologies and will be responsible for leading cross-functional teams. You are good at communicating with both technical and non-technical stakeholders, as well as bringing decisions to the right level with management. You can set a good framework and structure for the deliveries in the team and set the right priority in interaction with the business.

### Key responsibilities:

- Lead and manage software development projects using Agile methodologies based on the Microsoft tech stack.
- Facilitate Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives.
- Collaborate with management, product owners, developers, and stakeholders to ensure that the project's goals are met.
- Monitor project progress, identify and mitigate risks, and communicate project status to stakeholders.
- Continuously improve processes and practices to improve team performance and deliver value to end-users.

### Your qualifications & experience:

- Min. 5 years of documented experience as a Project Manager/Scrum Master
- Experience within the Microsoft tech stack (Dynamics 365 Sales, Power Platform, F&O/BC)
- Strong practical experience within Scrum
- Excellent interpersonal and communication skills to effectively engage with and manage stakeholders Ability to manage multiple projects simultaneously
- Certification in project management and Scrum
- Ability to write and speak Danish at a native level, and working proficiency in English
- Fintech industry understanding is an advantage

IFU has a strong set of values that guides us in our work with external partners and colleagues:

**CARE  
FOR THE  
FUTURE**

**STRIVE  
WITH  
COURAGE**

**MAKE A  
DIFFERENCE  
TOGETHER**

**INVESTMENT FUND FOR  
DEVELOPING COUNTRIES**

### **What IFU offers:**

- An opportunity to contribute to sustainable development in developing countries.
- A dynamic and international work environment.
- A chance to be part of a transformative IT landscape within IFU.

### **The team**

In our Applications & Data Lab team, we are 8 IT professionals and 2 students who form the framework for an end-to-end Microsoft delivery team and are based in our headquarters in Copenhagen and our Regional Office in New Delhi. In our team and the wider Technology and Operations Department, we attach great importance to good teamwork, maintaining our positive atmosphere, and having fun together. We help each other out, share our knowledge and – while each of us holds high standards to our work – we do not always take ourselves too seriously, enjoy the informal atmosphere, and share some good laughs. We enjoy that also outside the office, for example on our team days or during the annual staff seminar where the whole organisation comes together for an off-site.

### **Working and learning at IFU**

Learning is an important element of working in IFU, and we will support your personal development through training, sparring and by ensuring that you get exciting and challenging tasks and new opportunities for growth. When joining IFU, you will take part in our extensive onboarding program to get the best possible start in your new role.

IFU offers a hybrid workplace, allowing you to manage your own time effectively. We have a diverse and inclusive working environment with more than 130 talented individuals from 25+ different nationalities. We work seamless together with colleagues around the corner, cross the organization and between offices in Asia, Africa, LATAM and Europe.

### **Hope to hear from you**

Please send your CV and motivated application to [job3@ifu.dk](mailto:job3@ifu.dk) as soon as possible and no later than 31 August 2024, we will screen applications and conduct interviews on an ongoing basis.

### **Further information & contact**

For further information, please go through IFU's website. If you have any questions, please contact Head of Applications & Data Lab, Martin Kjærbo Nielsen, +45 41381210 or [mkn@ifu.dk](mailto:mkn@ifu.dk) and I will revert back to you.

IFU – the Investment Fund for Developing Countries provides risk capital to companies operating in developing countries across Africa, Asia, Latin America and parts of Europe. Investments are made on commercial terms in the form of equity, loans and guarantees. IFU has co-invested in over 1,300 companies in more than 100 developing countries and emerging markets. Capital under management is EUR 2.1 billion.
